FOLDING YOUR SPACE

# ABOUT US

1

We are architectural and engineering company founded in 2009 by architect Hassan Fahs specialized in smart space architecture.

Located in Nabatieh - Habboush - South Lebanon.

2

In 2017 we started as LOBEST in manufacturing space saving furniture.

3

Our goal is offering the ability to benefit from the narrow wasted and small areas by using space saving furniture with maximum storage.

4

Furthermore, we are importer for a variety of space saving furniture and products from different countries.

FOLDABLE DESKS

SPACE SAVING SHOES CABINETS

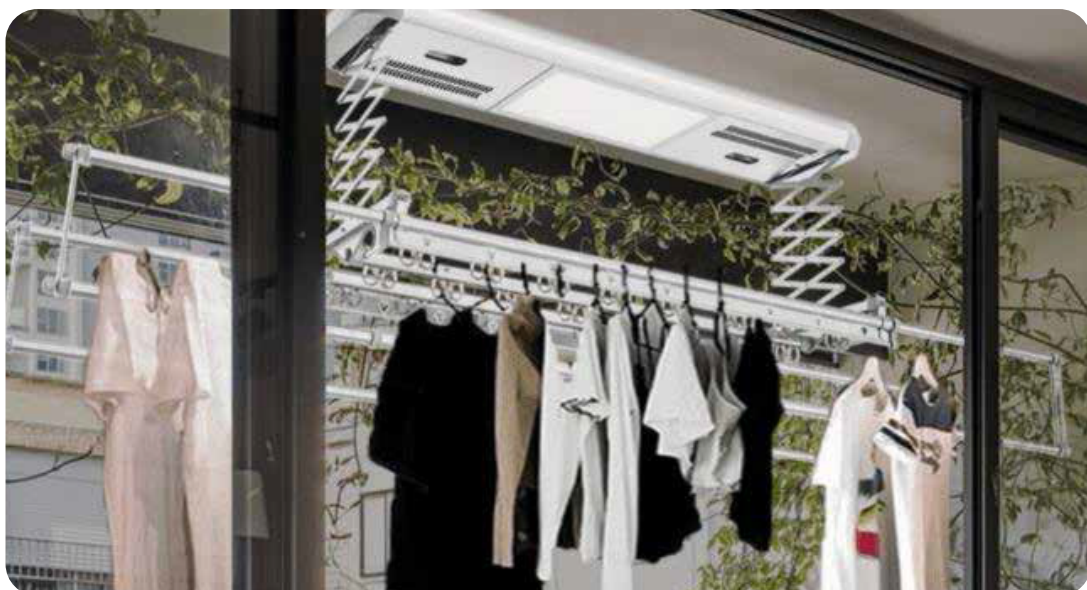

## FOLDABLE IRONING BOARDS

## CEILING TYPE CLOTHESLINES

# PROJECTS

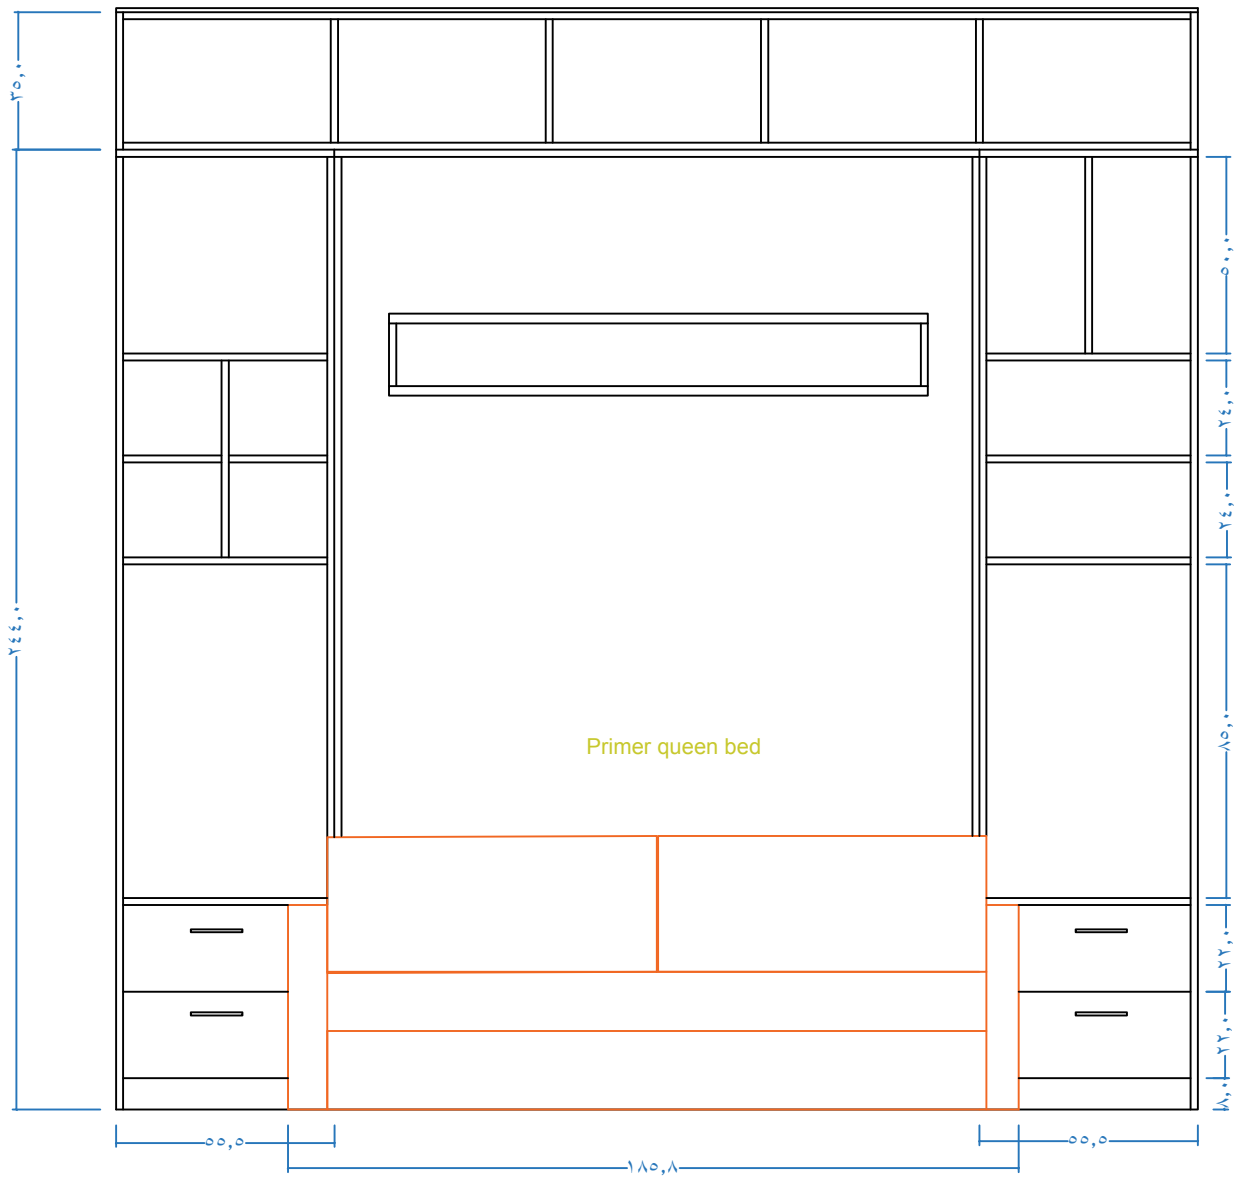

---

## GIRL'S BEDROOM

Certainly! Designing a bedroom for a little girl with a focus on maximizing play area and functionality can be exciting. Here's a the result:

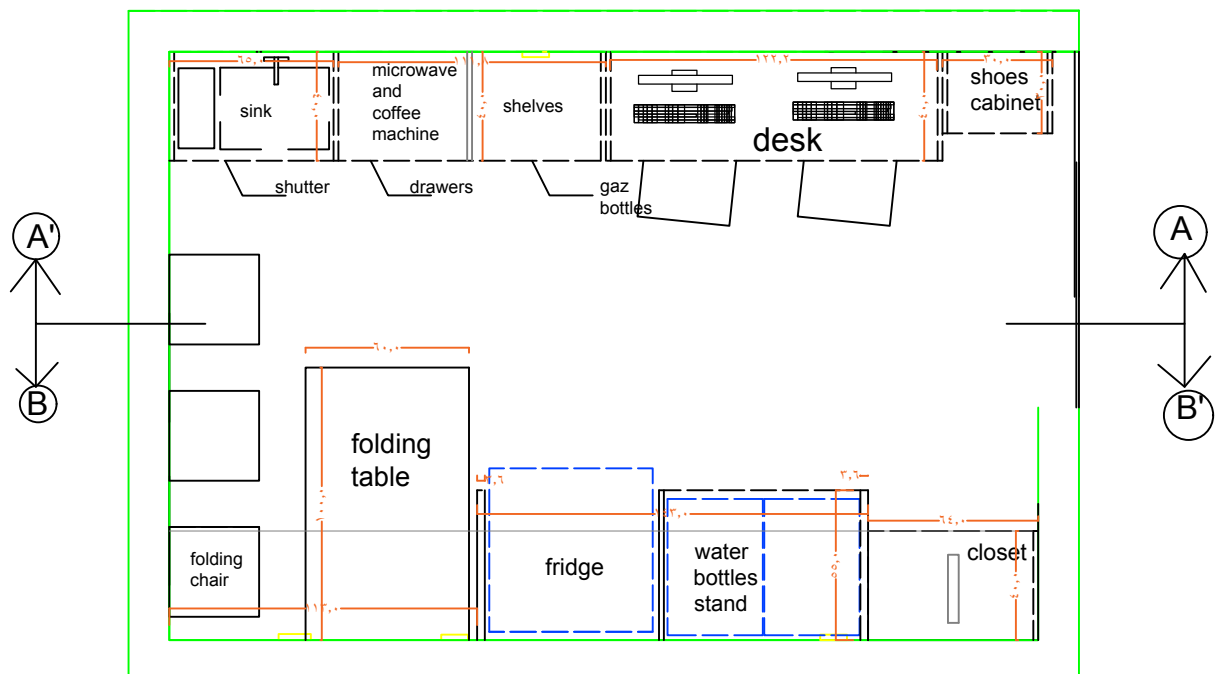

Choosing a foldable bed with a sofa to save space during the day. Adding floating shelves around the bed to display decorations, books and personal items, a foldable desk attached to the wall to create a study or creative space that can be easily tucked away when not in use, and a wall-mounted organizers for art supplies, stationary, and small items.

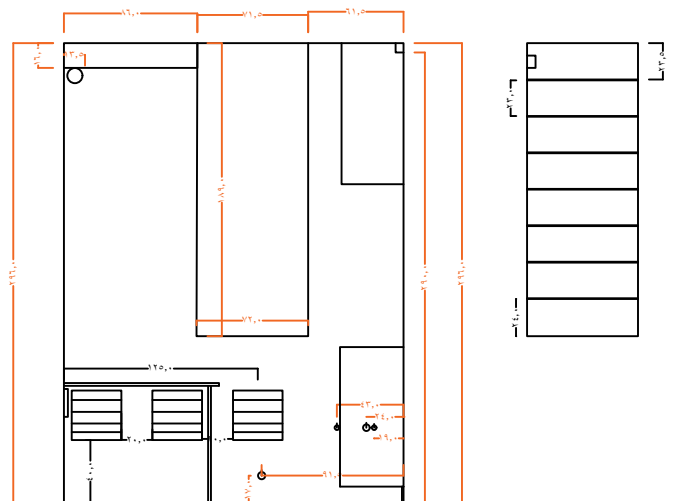

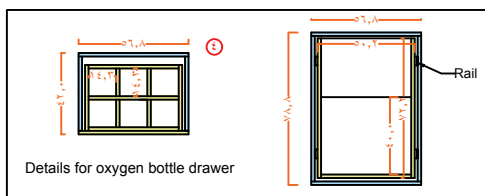

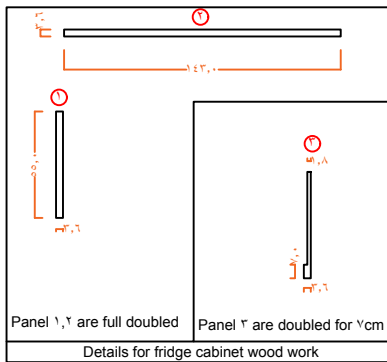

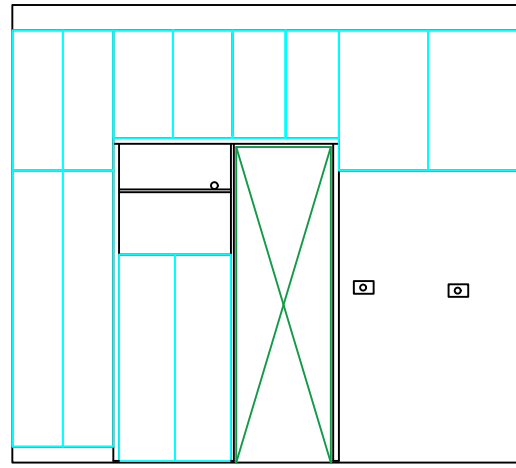

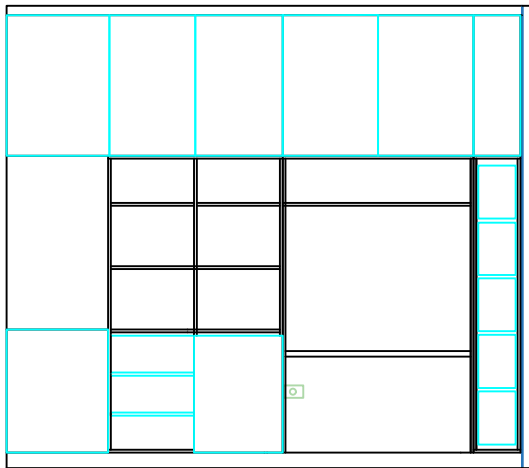

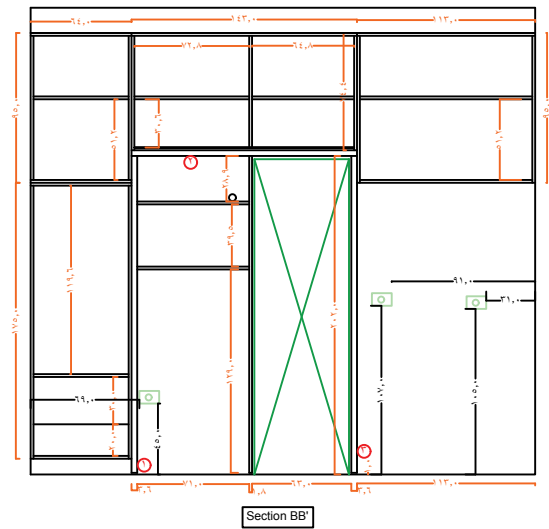

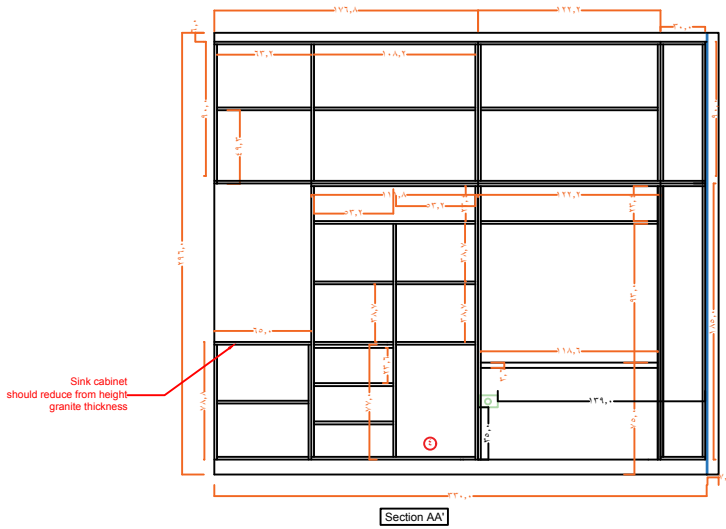

# CLINIC-STAFF ROOM

As a space-saving solution company we proceed this project basing on our client needs, by working on a small room with specific dimensions (200x300 cm) in a clinic as a multifunctional room that serves as a kitchen, rest area, office, wardrobe, shoe cabinet, and tools storage to optimize the available space efficiently.

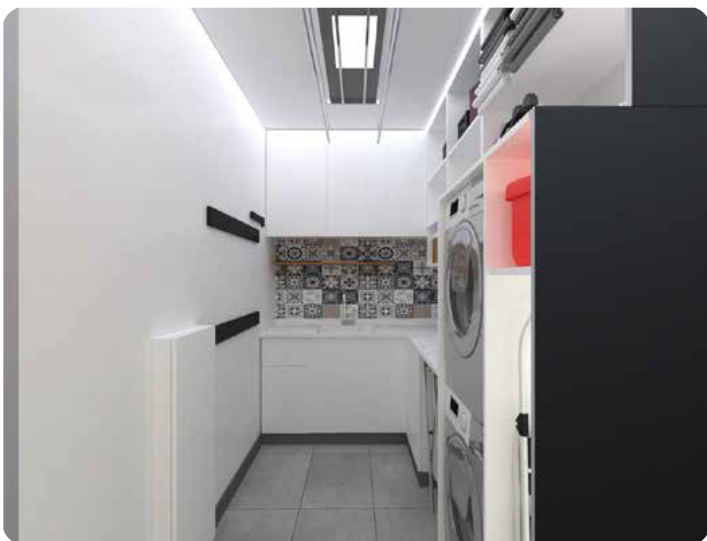

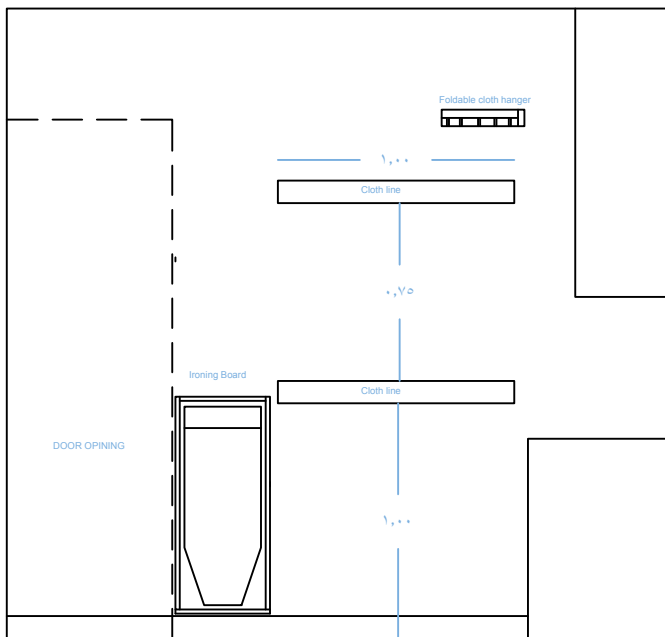

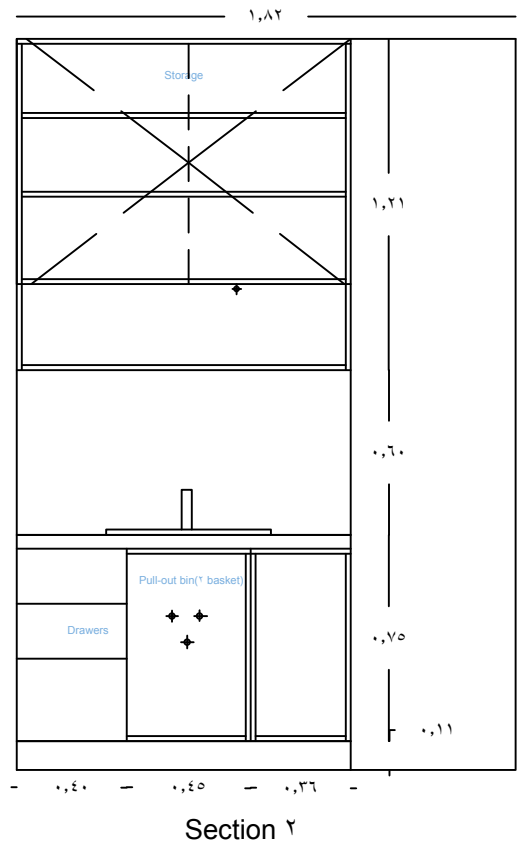

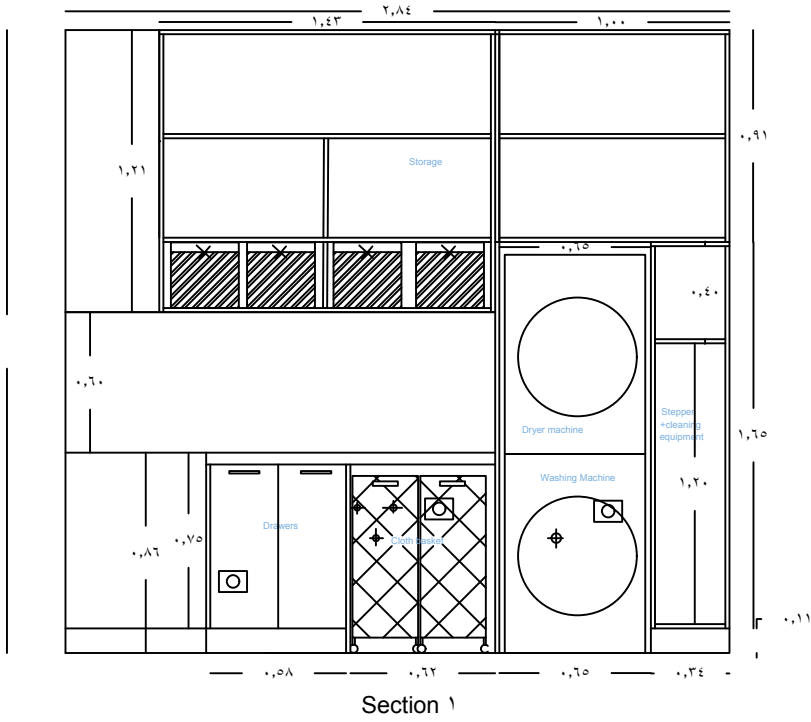

# VILLA BASEMENT - MEDYAR PROJECT

Designing a basement with staff rooms such as a studio, laundry, and maid room in a villa requires careful consideration of space, functionality, and aesthetics. In order to maximize the use of space and ensure easy and efficient storage solutions to keep the spaces organized and clutter-free. Considering the specific needs and preferences of the individuals who will be using these spaces and tailoring the design to their requirements, a professional architect and interior designer worked on this plan layout:

## LAUNDRY ROOM

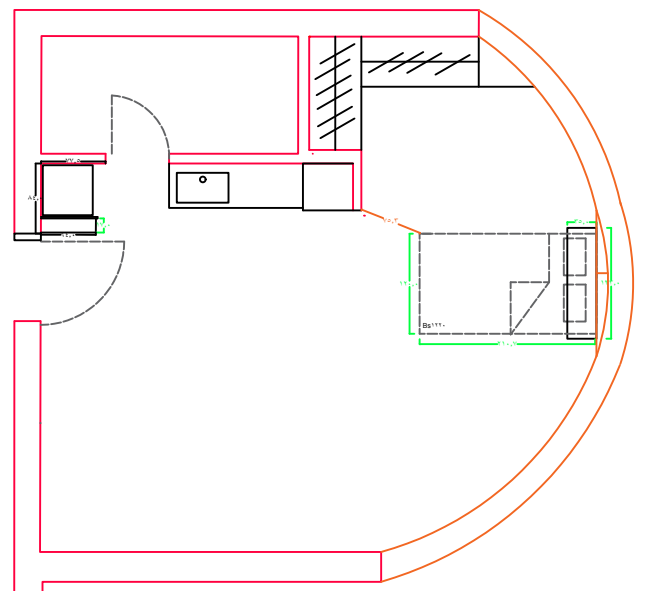

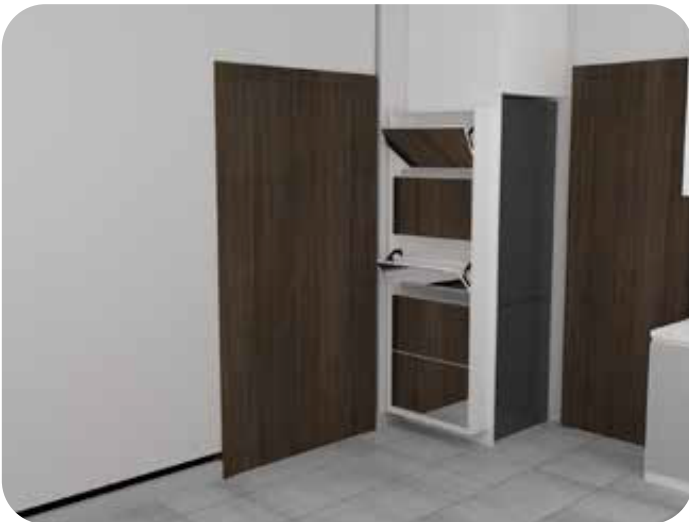

Including washing machines, dryers, ceiling and wall-mounted clotheslines, foldable iron board, laundry baskets, storage detergents, and cleaning cabinet.

# STUDIO

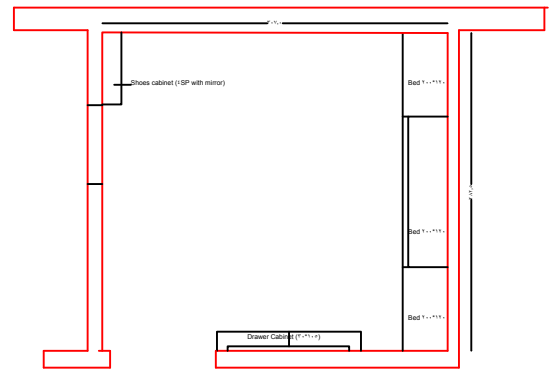

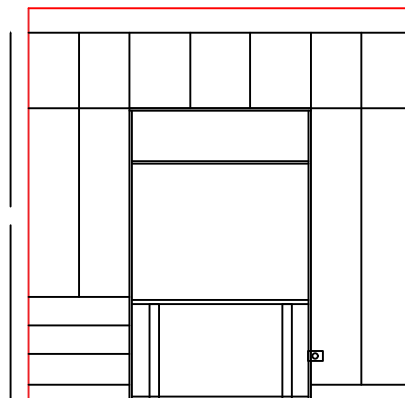

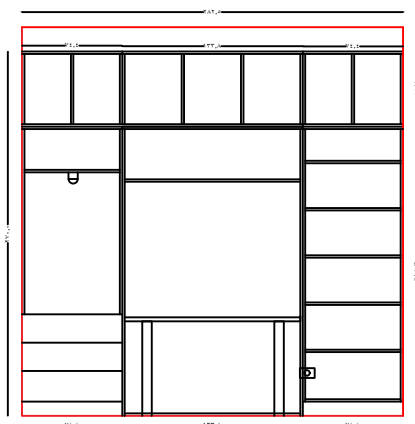

The studio can be a versatile space, serving as a multi-functional area. Includes a comfortable sofa bed, a TV unit, a pop up table, a folding shelves table and seats, a wall-foldable bed, a wardrobe, a shoe cabinet with mirror, and a small kitchenette that contains a storage and fridge cabinet.

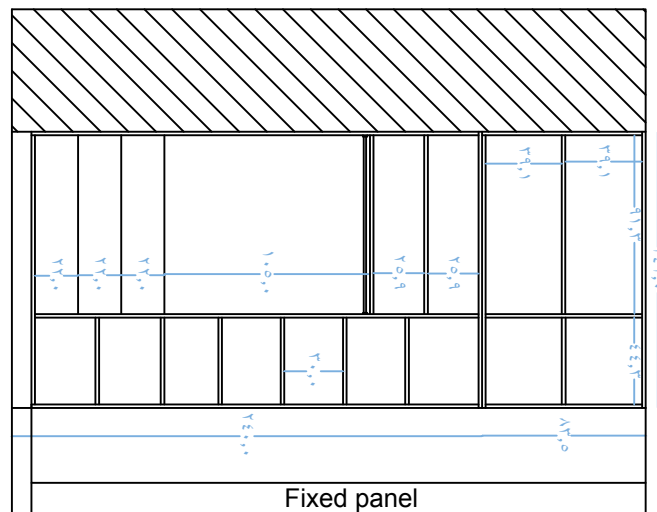

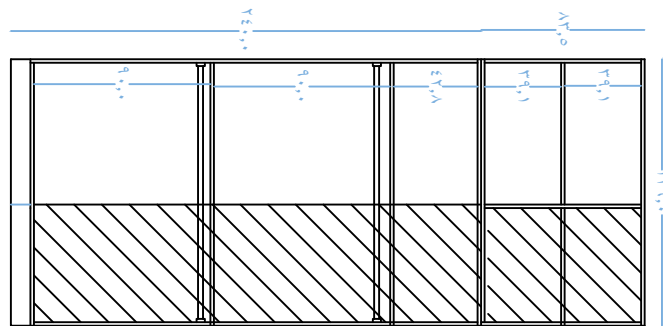

# MAID ROOM

Designing a comfortable and private space for the maid with a foldable wall bed, storage, drawers, and shoe cabinets.

# DRIVER ROOM

Creating a comfortable and functional space that includes a comfortable foldable wall bed with an ample storage cabinet for personal belongings and work-related items.
